# Value & Value Criterion

Define a value...

Define a value criterion (or standard)...

A Value & Criterion together is called...

Explain the purpose or goal of a value & value criterion:

Write an example of a framework:

Give a justification for why the judge should prefer your example framework:

**Frameworks must always be justified.**

True  
 False

**Value criterions come before the value when structuring a case.**

True  
 False

**If I win my framework, I should always win the round.**

True  
 False
